**Frequently Asked Questions**

- Why can't I just take the amount of real estate tax I paid from my tax receipt?**  
The Missouri Property Tax Credit and Public Safety Officer Surviving Spouse Credit are based on the tax you pay for your homestead dwelling (no more than five (5) acres). You cannot include tax paid for farms or land of more than five (5) acres.
- Why do I have to reduce the amount of tax I paid on my mobile home?**  
You don't! The amount of tax paid on a mobile home is listed with your other personal property tax. The Missouri Property Tax Credit and Public Safety Officer Surviving Spouse Credit cannot be based upon personal property tax for automobiles, which may be included on your tax receipt. Your assessor will figure the percentage of your tax which applies only to your mobile home.
